

POWS Board Meeting 02/10/2026

The meeting was called to order at 6:30pm.

The election will be held tonight for president. One of the members suggested we get a shredding company to come out. Sue did some research and the companies that provide the service require money or a certain number of people. We may be able to go in on it with other groups. David Gregory is with solid waste and can give us information on Orange Counties shred-a-thon. Sue suggested we look into the permitting process and talk to the commissioner to determine how to make it better. Sue will help the new president file the annual report and taxes. The president and the secretary have to be on the account. Sue and Richard will take care of that. Sue will put together a list of what changes need to be made. We will be moving the PO box to Apopka Pack and Ship.
